

## Standard FRP

### Cleaning Instructions

#### ***Overview***

For best results, engage in a regular cleaning schedule to avoid dirt build-up. In general, any mild cleaner applied with a sponge, soft bristle brush or towel is considered safe and effective. Avoid using any cleaner or stain remover considered abrasive or containing chlorinated hydrocarbons or aromatic hydrocarbons.

#### ***Cleaning Agents***

Mild soap solutions and the following cleaning agents have been tested and approved. Be sure to test any cleaning agent not appearing on this list in a small, inconspicuous area first.

- Murphy's Oil Soap
- Lysol
- Mr. Clean
- Formula 409 multi-purpose cleaner
- Fantastik multi-purpose cleaner
- Simple Green multi-purpose cleaner

#### ***Application Method***

Apply the cleaning agent with a sponge, soft bristle brush or towel, working it across the surface in a scrubbing or circular motion. Rinse thoroughly using cold water.

#### ***For Graffiti and Other Stubborn Stains***

If the aforementioned cleaning agents fail to remove graffiti or other stubborn stains, the following more powerful cleaning agents have been tested and approved for use with caution:

- Misty Vandalism Mark Remover
- Censor Vandalism Mark Remover

*Please note:* These powerful cleaning agents are flammable. Be sure to take proper precautions when using these and any other flammable materials.
