Multiple Layers of Protection

The ultimate lifespan of a steel roof and wall panels depends on the quality of the coating system that protects it. Inferior coatings will not protect the steel substrate from harsh elements. Metal Sales is committed to using only the highest quality products for its coating systems. Our paint systems offer multi-layer protection that is proven to be superior in every respect – layer by layer.

TOP COAT | Premium ceramic and inorganic pigment for exceptional color, durability and gloss retention

PRIMER COAT | UV and moisture resistant, key component to product longevity

PRE-TREATMENT | Promotes adhesion, moisture and corrosion resistance

GALVALUME OR GALVANIZED | Metallic coating barrier protection on base steel, inhibits corrosion

BARE STEEL | Mill certified, meeting ASTM standards

BACKER COAT | Finish coat on backside, covers primer and insures consistent color
