

Mueller Streamline Co.
8285 Tournament Drive, Suite 150
Memphis, TN 38125
P 901.753.3200

Date: July 19, 2016
Subject: **American Recovery and Reinvestment Act of 2009 (Buy American)**

The “Buy American” provision of the “American Recovery and Reinvestment Act of 2009” (P.L. 111-5) is an attempt to stimulate the economy by supporting production, employment, and other business activities here in the United States of America. This legislation follows previously existing statutes, the Buy American Act of 1933 and the Buy America law, first enacted in 1964. The difference in these varying statutes lies partially in whether sourced products must be 51% or 100% made in the United States.

Mueller Streamline Co. has a long and well known tradition in supporting the efforts of our industry. Since our early beginnings in Port Huron, Michigan in 1917, we have invested in and protected our manufacturing capabilities here in the USA. As of today, we have 20 manufacturing and distribution facilities located throughout the states and employ thousands of American citizens. Today, we are a publicly owned (NYSE: MLI) American company headquartered in Memphis, Tennessee. The following are some of our products that are manufactured in the United States, and their location of manufacture:

| Product(s) | Location(s) |
|----------------------|-------------------------|
| Copper Tube | Fulton, MS Wynne, AR |
| Line Sets | Fulton, MS |
| Wrot Copper Fittings | Covington, TN |
| PVC Plastic Fittings | Ontario, CA |
| ABS Plastic Fittings | Ontario, CA |
| Brass Flare Fittings | Hartsville, TN |

We are proud of our heritage and what we do to support the people of our country. If you have further questions about our company and products, please visit our website at www.muellerindustries.com or contact your sales representative.

* Section 116875 of the Health and Safety Code in California, originally known and popularized as AB1953, defines “Lead-Free” products as those containing less than 0.25 percent of lead.
