

WARRANTY INFORMATION

Multicoat Corporation offers a special 5 year Limited Materials Warranty to Property Owners. This Limited Warranty (effective upon date of purchase) protects the Property Owner against delamination problems with all Multicoat systems, as well as water intrusion of Multicoat's Waterproofing System, provided:

1. Multicoat system has been properly applied by a trained licensed contractor.
2. Problem is determined to be due to defect of Multicoat Corporation's products.

NOTE: Warranty is not applicable if there is structure movement or cracking of the underlying base and/or the weight bearing cement covering of the waterproofing membrane or any acts of God.

Failure to adhere to good construction and workmanship practices based on industry standard construction, means, methods, sequences and techniques could result in delamination, de-bonding and water intrusion for which Multicoat will not be responsible. The end user must look to the applicator for satisfaction if any problem develops with the Multicoat system covered by the warranty. Multicoat suggests that the customer:

1. Use only a licensed contractor in good standing (fully bonded).
2. Make certain that the applicator has been certified by Multicoat, prior to work commencing or certification while on the job. A simple phone call to Multicoat is sufficient to determine if an applicator is certified and if such certification is in good standing.

In the event that it is determined that the Applicator failed to install the system(s) in accordance with Multicoat's "instructions for use" or "specifications", the warranty is void. See specific warranty information below.
