

(PSB) Slab Bolster And All Plastic Continuous High Chair

AR Plastic Slab Bolster is used for supporting lower slab steel from slab form. Corrugations spaced 1" (25 mm) on centres serve as guides for spacing bars. Legs are solid plastic 4" (100 mm) on centre. Supporting cross bar is made from high strength plastic coated steel. Corrosion-proof and lightweight for handling.

HEIGHT			
in	(mm)	in	(mm)
3/4	(20)	2 3/4	(70)
1	(25)	3	(76)
