

Snap-Ty Wrench

The AR Snap-Ty Wrench is designed to fit tight against the wall and facilitate the Snap-Ty break back once the concrete has cured. The angle of the Snap-Ty Wrench will prevent scraping of knuckles during the end removal. After the form has been removed, place the Snap-Ty Wrench on the Ty. Keep the Snap-Ty Wrench against the concrete, bend the Ty towards the concrete surface. Rotate the wrench using a cranking motion to break the Ty back within the concrete wall.
