

# Neocrete<sup>®</sup>

Tough Floors  
For Industrial  
& Decorative  
Applications

# Superb Impact & Abrasion Resistance

**An ideal solution that is durable and versatile. Neocrete is a cementitious polyurethane flooring system, an ideal solution for many situations.**

From food processing and pharmaceutical applications to high-traffic hospitality and commercial uses, Neocrete offers excellent protection with a hard-wearing and long lasting finish.

Neocrete has exceptional chemical resistance and thermal shock tolerance. It provides outstanding protection and cleanability. With increased impact, wear and abrasion resistance it stands up to heavy machinery and equipment.

## Industrial

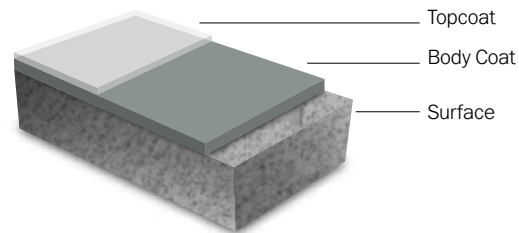

Neocrete industrial systems are ideal for use in food processing environments including freezers and areas with high thermal cycling.

### Neocrete SL, RT, SL Broadcast, Trowel, Vertical

For meat and poultry processing plants, food & beverage plants, industrial kitchens, pharmaceutical plants, animal research centers, & chemical environments.

Features	Benefits
Meets EPA national requirements for VOC	Sustainable
Extended working time yet still fast curing	Reduces shutdowns on operating facilities
Excellent chemical resistance	Extreme durability
Anti-fungal and anti-microbial properties	Does not promote bacterial growth

### Typical Applications

## Decorative

Neocrete decorative systems cure quickly to a beautiful, resilient and seamless finish that provides for easy maintenance.

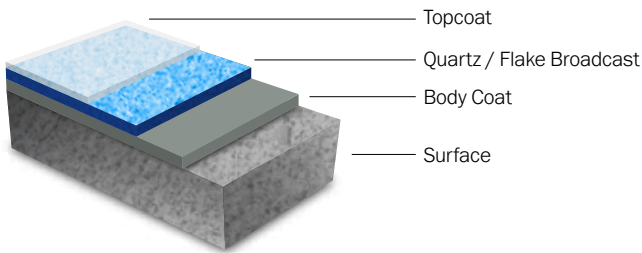

### Neocrete SL Quartz & SL Flake

Applications include laboratories, lobbies, shower areas, groceries/deli areas, vestibules/entry areas, food & beverage plants, especially projects requiring quick return to services.

Features	Benefits
Tough and long-lasting	Sustainable
Meets National EPA VOC requirements	Qualifies for LEED credits
UV Resistance	Maintains appearance and finish
Chemical resistant Urethane topcoat	Durable
