International: 703-527-3887

1. IDENTIFICATION

Product Name	UREPRIME HS2 PRIMER CORAL
Product Code	33114
Document ID	G33114
Revision Number	1
Prior Version Date	None
Intended Use	Industrial Maintenance Primer
Restrictions On Use	For Industrial Use Only
Chemical Family	Epoxy Urethane
Chemical Manufacturer / Importer	JONES-BLAIR® Company, LLC
	2728 Empire Central
	Dallas, TX 75235
	1-214-353-1600
Emergency Telephone Number:	ChemTrec Center 1-800-424-9300

2. HAZARD(S) IDENTIFICATION

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

Hazard Pictograms	
GHS Classification	Skin Sensitisation Category 1 Carcinogenicity Category 1A Reproductive Toxicity Category 1B Specific Target Organ Systemic Toxicity (STOT) - Repeated Exposure Category 1 Serious Eye Damage/Eye Irritation Category 2 Flammable Liquid Category 3
Signal Word	Danger
Hazard Statements	Flammable liquid and vapour. May cause an allergic skin reaction. Causes serious eye irritation. May cause cancer. May damage fertility or the unborn child. Causes damage to organs through prolonged or repeated exposure.
Precautionary Statements	
Prevention	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat, sparks, open flames and hot surfaces. No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical, ventilating, and lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Do not breathe dust, fume, mist, vapours or spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Contaminated work clothing should not be allowed out of the workplace. Wear protective gloves, protective clothing, eye protection and face

Revision Date: 01-05-2016 Product Code: 33114

	protection. Use personal protective equipment as required.
Response	IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF exposed or concerned: Get medical attention. Get medical attention if you feel unwell. If skin irritation or rash occurs: Get medical attention. If eye irritation persists: Get medical attention. Wash contaminated clothing before reuse. In case of fire: Use alcohol resistant foam, carbon dioxide, dry chemical, or water spray for extinction.
Storage	Keep container tightly closed. Store in a well-ventilated place. Keep cool. Store locked up.
Disposal	Dispose of contents and container in accordance with all local, regional, national and international regulations.
Hazards Not Otherwise Classified (HNOC)	Not applicable
Additional Information	

Not applicable

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Component	CAS #	<u>%</u>	
Methyl Amyl Ketone	110-43-0	5 - 10	
Titanium dioxide	13463-67-7	5 - 10	
Polymer of Epoxy Resin and bisphenol A	25036-25-3	5 - 10	
Quartz (Silica-Crystalline)	14808-60-7	3 - 7	
n-Butyl acetate	123-86-4	3 - 7	
Ethyl 3-ethoxypropionate	763-69-9	1 - 5	
1,5-Pentanediol, 3-methyl-	4457-71-0	1 - 5	
Xylene	1330-20-7	1 - 5	
Crystalline Aluminosilicate	1318-02-1	1 - 5	
Ethylbenzene	100-41-4	0.1 - 1	
1-Methyl-2-pyrrolidinone	872-50-4	0.1 - 1	

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

4. FIRST-AID MEASURES

Inhalation	Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen.
Eye Contact	In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.
Skin Contact	Wash with soap and water. Remove contaminated clothing and launder. Get medical attention if irritation develops or persists. Thoroughly wash or discard clothing and shoes before reuse.
Ingestion	If swallowed, do not induce vomiting. Get medical attention immediately. Induce vomiting as a last measure. Induced vomiting may lead to aspiration of the material into the lungs potentially causing chemical pneumonitis that may be fatal.

Appropriate Engineering Controls	Local exhaust ventilation or other engineering controls may be required when handling or using this product to avoid overexposure. Engineering controls must be designed to meet the OSHA chemical specific standard in 29 CFR 1910. Explosion proof exhaust ventilation should be used.
Respiratory Protection	General or local exhaust ventilation is the preferred means of protection. In cases where ventilation is inadequate, respiratory protection may be required to avoid overexposure. Follow respirator manufacturer's directions for respirator use.
Eye Protection	Wear safety glasses with side shields when handling this product. Wear additional eye protection such as chemical splash goggles and/or face shield when the possibility exists for eye contact with splashing or spraying liquid, or airborne material. Have an eye wash station available.
Skin Protection	Where use can result in skin contact, practice good personal hygiene. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. Clothing suitable to prevent skin contact.
General Hygiene Conditions	As with all chemicals, good industrial hygiene practices should be followed when handling this material. Use spark-proof tools and explosion-proof equipment.

Revision Date: 01-05-2016 Product Code: 33114

Reproductive and Developmental Toxicity Mutagenicity Inhalation Skin Contact	Possible cancer hazard. Contains ethylbenzene which may cause cancer based on animal data. (Risk of cancer depends on duration and level of exposure.) Xylene may cause adverse reproductive and/or developmental effects. Pregnant women may be at an increased risk from exposure. Xylene has been shown to be positive in mutagenicity assays. NOTICE: Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. Overexposure may cause lung damage. Prolonged contact may cause an allergic skin reaction.

n-Butyl acetate	Oral LD50 Rat 10,760	Dermal LD50 Rat 12,789	Inhalation LC50 (4h) Rat >
n-buly acetate	mg/kg	mg/kg	21.00 mg/L
	Oral LD50 Male Rat > 5000	Dermal LD50 Rabbit ~	Inhalation LC50 (6h) Male
Ethyl 3-ethoxypropionate	mg/kg	4080 - 4680 mg/kg	Rat > 998.00 mg/L
	Oral LD50 Female Rat ~		
	4309 mg/kg		
Zinc Phosphate	Oral LD50 Rat > 5000		
Zine i nospitate	mg/kg		
1,5-Pentanediol, 3-methyl-	Oral LD50 Rat ~ 7 - 10 g/kg		
Xylene	Oral LD50 Rat 3523 mg/kg	Dermal LD50 Rabbit 1100	Inhalation LC50 (4h) Rat
		mg/kg	11.00 mg/L
Crystalline Aluminosilicate	Oral LD50 Rat > 5110	Dermal LD50 Rabbit >	Inhalation LC50 (4h) Rat >
	mg/kg	2000 mg/kg	3.35 mg/L
Ferric oxide	Oral LD50 Rat > 5000	Dermal LD50 Rabbit >	Inhalation LC50 (4h) Rat >
	mg/kg	5000 mg/kg	20.00 mg/L
Ethylbenzene	Oral LD50 Rat 3500 mg/kg	Dermal LD50 Rabbit 5510	Inhalation LC50 (4h) Rat
		mg/kg	17.00 mg/L

Carcinogen Information
