Safety Data Sheet

According to Regulation 29 CFR 1910.1200, Regulation (EC) No. 1272/2008 (CLP)(GHS), Hazardous Products Regulation (HPR) (WHMIS 2015)

Reactivity <u>5.3 Advice for firefighters</u> Firefighting instructions Protective equipment for firefighters Other information	Thermal decomposition products may cause a health hazard. Flammable Liquid! This material releases vapors when heated above ambient temperatures. Vapors can cause a flash fire. Use water spray or fog to cool exposed containers. Firefighters should always wear self-contained breathing apparatus (SCBA) and full protective gear when fighting any chemical fire. On heating or burning harmful gasses/vapors may be released. This product may cause the floor to become slippery.	
Section 6. Accidental release measu	ires	
6.1 Personal precautions, protective equip	ment and emergency procedures	
6.11 Protective Equipment	Extremely Flammable. Eliminate any ignition sources. Dike or impound spilled material. Use Non-sparking tools. All equipment must be grounded. Take proper precautions to ensure your own health and safety before attempting spill control or cleanup. Equip cleanup crew with proper protective equipment.	
6.2 Environmental precautions	Prevent entry to sewers and public waters.	
6.2 Mothods and materials for containmon	Notify authorities if liquid enters sewers or public waters.	
6.3 Methods and materials for containmen Methods for cleaning up	Soak up spills with inert solids, such as clay or diatomaceous earth. Collect into vapor tight containers and dispose of properly.	
Section 7. Handling and storage		
7.1 Precautions for safe handling Protective measures Hygiene measures	Wash hands and other exposed areas with soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in work areas to prevent formation of vapor. When not in use keep containers tightly closed. Avoid breathing vapor or mist. Wash contaminated clothing before reuse.	
7.2 Conditions for safe storage, including any incompatibilities		
Storage conditions	Store in accordance with local regulations. Store in original container in a cool well-ventilated place away from heat, sparks and open flame. Keep containers tightly closed until ready for use. Strong oxidizing agents	
Storage temperature	Store in a cool dry environment away from sources of ignition.	
Section 8. Exposure controls/persor	nal protection

### 8.2 Exposure controls

Appropriate engineering controls

Use with adequate ventilation to keep product vapor concentrations below specified  $\mathsf{TLV}$ 

According to Regulation 29 CFR 1910.1200, Regulation (EC) No. 1272/2008 (CLP)(GHS), Hazardous Products Regulation (HPR) (WHMIS 2015)

Eye and face protection	Chemical goggles and/or face shields are recommended to prevent
Skin protection	potential eye contact, irritation or injury. Wear chemical resistant gloves and appropriate protective clothing and boots as required to prevent skin contact. Wash exposed skin
	frequently with soap and water. Soiled clothing should be laundered before reuse.
Respiratory protection	General room ventilation is normally adequate. Avoid breathing the product mist or vapors. The use of an appropriate respirator is recommended whenever the airborne concentrations exceed the TLV.
