

AccuTrac EZ
FASTENING SYSTEM

**Maximize Rooftop
Productivity with AccuTrac EZ**

NEW & IMPROVED

**NOW
CORDLESS***

Newly-designed “can’t miss” wide mouth feeder tube can help increase fastener loading speed!

Accommodates fasteners up to 8-inches in length.

Simplified and easy bit replacement process saves time.

Redesigned plate shuttle links are easier to compress for all day comfort.

Easy-to-use depth adjustment ring sets the precise depth for each fastener/plate to avoid over- and under-driving for a quality installation.

Highly visible orange “screw-in chamber” indicators alert users to avoid loading two screws at the same time.

Accomplish more projects with interchangeable boots for installing RhinoBond and AccuTrac Insulation Plates.

AccuTrac EZ is the “stand-up tool” for contractors who want to win more projects, install more squares per day, and maximize rooftop productivity when installing insulation fasteners and plates.

Compatible with a variety of OMG Fasteners including #12 Standard, #14 Heavy Duty, and #15 XHD.

* Battery not included
