OlyBond500
SpotShot INSULATION ADHESIVE

Perfect for Small Jobs and Quick Repairs

OlyBond500® is the premiere insulation adhesive for low-slope roofing applications. Packaged in a box of (4) 1,500 ml cartridge sets, OlyBond500 SpotShot is the perfect choice for crickets, smaller roofs, hard to reach areas and rooftop repairs.

OlyBond500 is a fast-acting, two-component, low-rise polyurethane foam adhesive designed to adhere most insulation types to a wide selection of common roof decks and materials. OlyBond500 can be used in both new and re-roofing applications, including applications that require multiple insulation layers.

OlyBond500 is dispensed in a semi-liquid bead that spreads to several inches before rising $\frac{3}{4}$ to 1 inch above the substrate. Place the insulation/cover board into the adhesive and walk into place. A chemical cure occurs within approximately 4 to 8 minutes depending on the temperature and weather conditions.

Features & Benefits

- Odor- and noise-free installation will not disturb building occupants.
- Easily applied with portable SpotShot applicator tools.
- Ultra low VOC.
- SpotShot is available in temperature-optimized grades for year-round use:
Regular Grade – For use in temperatures above 40°F; and
Winter Grade – For use in temperatures from 0°–40°F.
- Also available in an environmentally sensitive green formulation (OlyBond500 Green).

Packaging & Coverage

Packaged in 1,500 ml cartridge sets, 4/case. Coverage is 4–6 squares/case depending on the substrate and insulation type.

Approvals

OlyBond500 is approved by most roof system manufacturers and is Factory Mutual, Underwriters Laboratories, Florida Building Code and Miami Dade approved.
