

QUAD[®] FOAM

QUAD[®] FOAM offers superior protection from the elements. Its high ratio of closed-cell structures provides the ideal barrier to air and moisture while delivering optimal insulation performance. The product's combination of strength and flexibility also allows it to respond effectively to years of seasonal expansion and contraction. OSI[®] QUAD[®] FOAM is a high-yield, quick-setting formula available in both straw and gun-grade cans. It works in all regions of the country during both the high temperatures of summer and the extreme lows of winter. For fast and easy jobsite installs, with long-term dependable performance, reach for OSI QUAD FOAM.

- Apply in temperatures as low as 14°F
- Closed-cell technology keeps air and moisture out
- R5 insulation value helps inhibit heat transfer
- Low-pressure, low-expansion formula will not warp, deform or bow windows
- 10-minute, quick-setting foam
