

INNOVATIONS FOR LIVING®

Attic Stairway Insulator

Product Data Sheet

Description

Owens Corning™ Attic Stairway Insulator is comprised of durable PINK FIBERGLAS® Insulation and tough, highly reflective foil. The product comes fully assembled and is easy to install. The Attic Stairway insulator can help reduce air leaks and add insulation to the home as recommended by the Seal and Insulate with ENERGY STAR® effort.

Uses

The Attic Stairway Insulator closes the insulation gap created by attic stair access points in residential housing, leading to reduced energy costs year round. The product is designed to cover access points up to 25½" x 54".

Easy Installation

The Attic Stairway Insulator design makes it easy to install; simply unfold and place over the attic opening.

Disclaimer of Liability

Technical information contained herein is furnished without charge or obligation and is given and accepted at recipient's sole risk. Because conditions of use may vary and are beyond our control, Owens Corning makes no representation about, and is not responsible or liable for the accuracy or reliability of data associated with particular uses of any product described herein. Nothing contained in this bulletin shall be considered a recommendation.

Key Properties

As a result of its unique construction and the nature of the raw material, the Attic Stairway Insulator offers an attractive property profile:

- Certified for both GREENGUARD Indoor Air Quality® and GREENGUARD Children & Schools™ Indoor Air Quality
- High flexibility

Performance Properties

The Attic Stairway Insulator is R-10 rated per ASTM C 177 and helps reduce energy loss year round. The thermal imaging in Figures 1 and 2 shows the product's effectiveness.

Prior to using the Attic Stairway Insulator, the surface temperature of the attic stair panel was colder than the rest of the home interior as seen by its blue color in the before photo. With the Attic Stairway Insulator, the panel surface temperature was similar to the rest of the home.
