

## Duramet™ flat sheet and coiled steel packaging

Protect your flat sheet & coiled steel with Duramet plastic-backed wrap and you can rest assured knowing your steel will arrive at its destination looking steel-mill fresh!

### Features & Benefits

- All Duramet grades are available with our patented [Korin™ VCI](#) corrosion inhibitor
- Lightweight packaging specifically designed to protect against corrosion, abrasion, handling and transit damage
- Woven construction provides excellent tear strength and puncture resistance
- Made from a proprietary blend of 100% recyclable polypropylene
- Available in Widths : up to 144", 3.66 m
- Flexible material for ease of packaging and pliability down to -40°C
- Evenly spaced reinforcing tapes provides flat uniform surface with no gaps between tapes eliminating zebra pattern effects
- White top coat with black or beige undercoat provides superior opacity and reduces internal heat build-up and condensation
- High Titanium Dioxide content in top surface coating provides white surface for sharper graphics
- Unique polyolefin blended top coat surface which promotes strong ink bond for graphics
- Ultraviolet stabilizing additives in all 3 layers: surface coat, the high strength inner fabric, and underside coating

All 3 layers of Duramet are treated with ultraviolet stabilizing additives

All Duramet custom printed colors are calibrated to Pantone swatches using the latest digital color matching equipment

# Duramet Applications

Alloys, Auto Coil Wrap, Automotive Aluminized Sheet, Bar Stock, Coated Steel, Coil Covers, Cold Rolled, Copper & Brass, Flat Rolled, Galvanized Steel, Painted Steel, Plate Steel, Sheet Steel, Steel Tube, Strip Laminate, Tin Coil, VCI Paper & Bags & customs solutions.

## Ask about our custom options:

- **Korin VCI Corrosion Protection** – Korin VCI technology is a safe, dry, InterWrap patented chemical technology that halts the natural oxidation process
- **Strip Laminate** – Add a double layer of coated scrim glued to the outer edges for superior durability

- **QuikCover** – For coil wrapping that is up to 75% faster than hand wrapping, we offer QuikCover™ featuring elastic ends and/or a draw string for a perfect fit every time.
- **Custom Printing** – Flexographic printing up to 144", 3.66m wide, up to 4 spot colors – sharp, bold and vibrant graphics
