

STANDARDS AND SPECIFICATIONS:

PABCO® Gypsum provides this reference table listing its gypsum board products with available sizes, applicable ASTM product Standards and assigned U.L. gypsum core “types” for each product listed. Contact your PABCO® Sales Representative for specific product availability, special handling, or special order products. PABCO® Gypsum recommends that its gypsum board products be installed to meet all applicable Codes and in accordance with the recommendations promulgated by the Gypsum Association in its current edition of GA-216 and GA-253 or ASTM application Standard C840 and C1280. Additional technical assistance is available from PABCO® Gypsum Technical Services.
