

093 Zinc Expansion Control Joint

093 Expansion Control Joint relieves stresses of expansion and contraction across ceiling and wall areas. Manufactured from the highest quality pure zinc coil stock for superior corrosion resistance it can be used for interior or exterior applications. Perforated flanges allow excellent joint compound adhesion for faster drying and long lasting adhesion. The 1/4" opening is protected by plastic tape which can be removed after joint compound or plaster has been applied and the finish is complete.
