#1 EXPANDED CORNER BEAD

Phillips #1 Expanded Corner Bead is designed to provide strong corner reinforcement for conventional plaster applications. A solid metal nose provides a straight, rigid ground, and the 2-5/8" flanges can be easily flexed over irregular, uneven surfaces (3" special order, minimum quantities may apply). Easily install using standard industry practice. Plaster keys near solid nose provide reinforcement where needed most to ensure straight corners. Phillips offers this product in both galvanized steel (HDG) and zinc* (ZNC).
