

## gripSTIK® Vinyl Flat L-Tear Strip

gripSTIK® Vinyl Flat L-Tear Strip provides a clean line at a variety of wallboard intersections. A one-size-fits-all product, the Flat L-Tear Strip is used where a straight edge is needed and there is not enough room at the intersection for the leg. The tear-off strip provides a protective edge and a guide for drywall finishing knives. Once the joint compound is applied, finished and painted, the tear-off strip is removed to form a clean, crisp line. Won't rust and impact resistant. Easy to cut with shears, knife or fine-tooth hacksaw.
