

PROSOCO Paint strippers and coating removers

Multiple layers of paint and other coatings often hide masterpieces of masonry and stonework. PROSOCO paint strippers and coating removers bring the hidden beauty to light.

Sure Klean® paint and coating removers

Heavy Duty Paint Stripper

Extended dwell-time stripper cuts through up to 12 layers of paint.

- Nonflammable and water-rinsable.
- Gel-consistency for easy vertical application.
- Works with brush, roller or airless sprayer.

Fast Acting Stripper

Cuts tough epoxies, polyurethanes and other high-strength coatings.

- Suitable for inside or outside use.
- Takes oil, grease and built-up coatings OFF concrete decks.
- Contains no aromatic hydrocarbon solvents.

Enviro Klean® Safety Peel products

Ideal for lead-based paint abatement and other paint stripping projects. These creamy pastes trap potentially hazardous solids, then are “peeled” off the surface for safe, simple containment and disposal. Includes 10 3-square-foot sheets of Enviro Klean® OverCoat protective paper.

Safety Peel 1

Mild solvent paste dissolves multiple paint layers.

- Contains no methylene chloride or methanol.
- Has a pleasant citrus odor.
- Suitable for interiors or exteriors.

Safety Peel 2

Alkaline paint stripper uses no methylene chloride or methanol.

- Nonflammable and water-rinsable.
- Suitable for trowel or spray application.
- Easier to use than liquid paint strippers.

Safety Peel 3

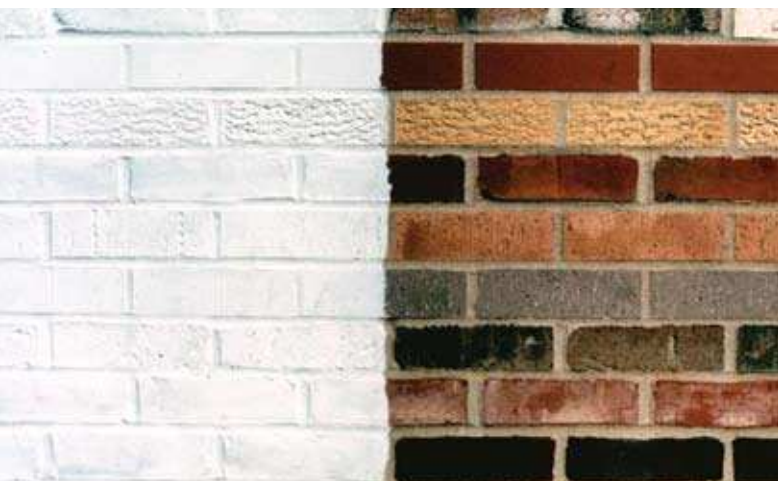

Mild solvent paint stripper is perfect for removing failed coatings.

- Surface neutralization after use not needed.
- Ideal for lead-based paint abatement programs.
- Mild citrus odor.

Enviro Klean® OverCoat

Protective paper prolongs paste paint stripper performance while guarding paste and passersby from incidental contact.

- Easily applied and removed by hand—no tools needed.
- Available in sheets or rolls.
- Sturdy protective paper adheres well; keeps pastes moist and active.
