

PROTECT YOUR DRIVEWAY THE RIGHT WAY

Concrete driveways face various tough conditions that accelerate deterioration. As homeowners you can't prevent these conditions, but you can be proactive in the preparation and protection of your investment. Use **Oil & Grease Stain Remover** and **Klean 'N Release Cleaner** to clean your concrete of grease and oil stains, as well as general soiling. Then protect your investment with **Saltguard[®]**, **Saltguard[®] WB** or **Saltguard[®] VOC** to keep water and water-borne contaminants from attacking your concrete.

CLEAN

Scour widespread oil and grease films, adhesive tape residues, rubber tire marks and scuffs from concrete driveways.

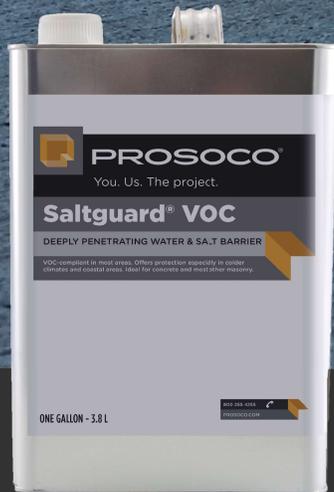

PROTECT

Keep your driveway free of salt, penetrating oil and grease stains that degrade value, performance and appearance.

MAINTAIN

Head off the ugly cracks and spalling of your driveway before it starts. Keeping water out prevents contaminants from creating unsightly stains.

SALTGUARD VOC, THE LATEST ADDITION TO THE LINE, MEETS US EPA, MARICOPA COUNTY, AZ AND NORTHEAST OZONE TRANSPORT COMMISSION VOC REQUIREMENTS.

PREPARE AND PROTECT.

OIL & GREASE STAIN REMOVER

Oil & Grease Stain Remover is a poultice cleaner for pulling stubborn oil and grease stains out of pavers, concrete, stone and other porous surfaces.

KLEAN 'N RELEASE CLEANER

Enviro Klean® Klean 'N Release Cleaner is a fragrance-free, all-purpose cleaner and degreaser that is safe for daily cleaning of interior and exterior hard surfaces like stone, tile, masonry and metal found in kitchens and bathrooms, as well as on patios, sidewalks and driveways.

SALTGUARD WB

Saltguard WB is a water-based, ready-to-use, VOC-compliant silane/siloxane water repellent and chloride screen for the protection of concrete and masonry. Saltguard WB penetrates more deeply than conventional water- or solvent-based water repellents.

Need help selecting the right cleaner or protective treatment for your job? That's why we're here.
