NOTE: Color Selections on this card provide a close approximation to the actual appearance of QC product color when used on horizontally troweled and/or imprinted concrete that has been sealed. Variations can be expected due to job conditions, finishing techniques, method of cure and use of sealers.

The standard colors shown on the QC COLOR HARDENER color chart are also available in QC COLORTECH-E and QC COLORTECH.

Please refer to price list for color groups and pricing. Color matching of custom colors is available only from Madera, CA. Pricing is for standard colors only; custom colors will be individually priced. Pricing of custom colors will be available upon completion of color match. Contact QC Customer Service for assistance.

Premium Architectural
Concrete Products*

COLOR SELECTION GUIDE

THIS COLOR CHART IS APPLICABLE TO THESE AND OTHER QC PRODUCTS:

QC COLOR HARDENER*

- QC COLOR HARDENER is the preferred coloring method for imprinted concrete, flatwork and vertical applications, or surfaces with salt, broom or rotary finishes, to show tone, texture, color and craftsmanship. This product delivers premium architectural concrete performance: *brilliant color*, superior finishing, durable, hardened surfaces and improved texture transfer.
- The blend of selected gradated aggregates and architectural quality cements produces substantially harder and more wear-resistant surfaces. Request QC COLOR HARDENER HD*, aluminum oxide enriched for slip-resistance in heavy traffic and commercial areas.
 - **COVERAGE RATES:** 60-150 lbs. per 100 square feet -varies by light, medium or dark color.
 - **PACKAGE SIZES:** 60-lb. plastic-lined bags or 60-lb. pails.
 - **RECOMMENDED SEALERS:** QC Cemseal*, QC Solvent-based Sealers*, QC Cemguard* or QC Surpro (SB or WB Matte)*.

QC RELEASE POWDER II*

- QC RELEASE POWDER II is engineered for use on any color hardened, textured concrete including gray, integral colored and color hardened surfaces. This product provides a clean release from mat-type texturing tools while creating highlights and *antiquing effects* for the look of natural stone.
 - **COVERAGE RATES:** 1,000-1,500 square feet per 30-lb. pail.
 - **PACKAGE SIZES:** 30-lb. pails.
 - **RECOMMENDED SEALERS:** QC Cemseal*, QC Solvent-based Sealers* or QC Surpro (SB or WB Matte)*.

QC THIN-PAVE™ NI*

STAMPABLE OVERLAY

- QC THIN-PAVE NI stampable overlay *transforms* simple flooring into an appealing expanse of imprinted artwork. This product was created to bond with most structurally sound substrates and can be textured up to 5/8" thick with most standard imprinting tools for the illusion of authentic, hand-laid stone or brickwork.
 - **COVERAGE RATES:** range from approximately 22 square feet at 1/4", 16 square feet at 3/8", 11 sq. ft. at 1/2" and 9 sq. ft. at 5/8". Recommended thickness is 3/8" - 1/2".
 - **PACKAGE SIZES:** Mix Liquid: 1- and 5-gallon pails. Powder: 47-lb. bags.
 - **RECOMMENDED SEALERS:** QC Cemseal*, QC PermaSeal*, QC VOC 100 WB*, QC Solvent-based Sealers* or QC Surpro (SB or WB Matte)*.

RENEW BY QC*

CONCRETE RENEWAL STAIN

- RENEW BY QC is a line of non-hazardous, ultra-low VOC water-based penetrating concrete staining products free of acid or acrylic. These products make it easy to rejuvenate colored surfaces or plain gray concrete by minimizing discolorations without altering surface texture. RENEW BY QC products are made especially for use with existing, unsealed, interior or exterior, concrete and other cementitious surfaces, and are ideal for use with overlays. Applications include high traffic areas, patios, theme parks, resorts, city buildings, pool decks and driveways.

■ COVERAGE RATES:

RENEW BY QC SOLID COLOR STAIN

Full Size Kit — Covers 250-400 square feet, in two coats.

Sample Size Kit — Covers approximately 45 square feet, in two coats.

RENEW BY QC TRANSLUCENT STAIN

Full Size Kit — Covers 300-600 square feet.

Sample Size Kit — Covers 75-150 square feet.

- **RECOMMENDED MAINTENANCE:** Regular cleaning with QC FLOOR CLEANER* is recommended. The application surface should be inspected periodically for thin or traffic-worn areas. Re-apply product as needed with a maintenance application.

***PLEASE REFER TO THE QC WEBSITE FOR THE CORRESPONDING PRODUCT INFORMATION BULLETIN CONTAINING TECHNICAL AND APPLICATION DATA.**
