

# RENEW BY QC

Non-hazardous, water-based solid color concrete stains

Ultra-low VOC content, free of acid and acrylics

Available in 42 standard colors

*(View the QC Color Hardener Color Chart for standard selections)*

## RENEW BY QC consists of four products:

- RENEW BY QC SOLID COLOR STAIN is a polymer-modified, water-based, high-quality solid concrete color stain that penetrates the surface of concrete, forming an opaque, breathable finish that does not require a sealer.
- RENEW BY QC TRANSLUCENT STAIN is translucent stain used over RENEW BY QC SOLID COLOR STAIN in a contrasting color to produce an antiquing effect.
- RENEW BY QC PRIMER is a primer for use when applying only RENEW BY QC TRANSLUCENT STAIN.
- RENEW BY QC COLOR ADDITIVE is a color enhancer for use with RENEW BY QC TRANSLUCENT STAIN.

# RENEW BY QC

## PRODUCT NOTES

- RENEW BY QC products are made especially for use with existing, unsealed, interior or exterior, concrete and other cementitious surfaces, and are ideal for use with overlays.
- Applications include high traffic areas, patios, theme parks, resorts, city buildings, pool decks and driveways.
- Standard colors for RENEW BY QC SOLID COLOR STAIN, RENEW BY QC TRANSLUCENT STAIN AND RENEW BY QC COLOR ADDITIVE can be chosen from the QC COLOR HARDENER color chart. Products can be special ordered in any standard QC product color.
- RENEW BY QC COLOR ADDITIVE is available for creating custom colors or different concentrations.
- RENEW BY QC products can be used to create specialty decorative designs with stencils. Note: RENEW BY QC products must be applied in very light applications with an appropriate hand brush to avoid bleeding under the stencil.
- RENEW BY QC TRANSLUCENT STAIN can be used alone to tint uncolored concrete surfaces (following an application of RENEW BY QC PRIMER) or to create a variety of faux finishes by blending and layering different colors.

## COVERAGE RATES

- Coverage rates may vary depending on the texture, porosity and condition of the concrete, application method, and other local conditions.

### RENEW BY QC SOLID COLOR STAIN

Full Size Kit — Covers 250-400 square feet in two coats • Sample Size Kit — Covers approximately 45 square feet, in two coats

### RENEW BY QC TRANSLUCENT STAIN

Full Size Kit — Covers 300-600 square feet • Sample Size Kit — Covers 75-150 square feet

### RENEW BY QC PRIMER

Full Size Kit — Covers approximately 500-800 square feet

## MAINTENANCE AND LIMITATIONS

- Regular cleaning with QC FLOOR CLEANER\* is recommended. The application surface should be inspected periodically for thin or traffic-worn areas. Re-apply product as needed with a maintenance application.
- RENEW BY QC products are not recommended for pre-sealed or dense surfaces, including glazed tile, marble or granite, dense brick, dense slate, or terrazzo.
- RENEW BY QC TRANSLUCENT STAIN cannot be used to create solid color.
- RENEW BY QC SOLID COLOR STAIN colors should not be combined to try and create another desired color.
- These products will not change concrete texture, repair cracks or patches, or prevent any foreign material from penetrating or soiling the substrate.

## NECESSARY TOOLS FOR APPLICATION

Renew applicator brush • Paint mixer with power head • Broom handle • 3-inch paint brush • One bucket, 5-gallons or larger for Full Size Kit or 2-gallons or larger for Sample Size Kit.
