**Raven Industries, Inc. Engineered Films Division 821 West Algonquin Ave Sioux Falls, SD 57104**

Notice: Safety Data Sheets (SDS)

The film, sheeting, and tape accessories produced and/or distributed by Raven Engineered Films are not classified as hazardous chemicals under the US Department of Labor, Occupational Safety and Health Administration's (OSHA) 1910.1200 regulation. Our materials meet the OSHA definition of manufactured "articles" (1910.1200(c)) that will not expose users to hazardous chemicals under normal and expected conditions of use, and are therefore exempt from all requirements of the regulation.

US Federal OSHA defines an "article" as follows at 29 CFR 1910.1200 (c): *Article* means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical (as determined under paragraph (d) of this section), and does not pose a physical hazard or health risk to employees.

Raven Engineered Films will continue to provide technical product data sheets for each of our products, however, we will no longer provide MSDS or SDS sheets for products that are not classified as hazardous chemicals as outlined in the Global Harmonized System (GHS) standard.

For more information on OSHA Hazard Communication (29 CFR 1910.1200), visit [www.osha.gov](http://www.osha.gov).

If you should have additional questions or concerns, please contact Raven Engineered Films at [efdsales@ravenind.com](mailto:efdsales@ravenind.com) or +1 (800) 635-3456.
