

SMOOTH ROD SERIES
SUPERTIE[™]
 FIBERGLASS FORM-TIE SYSTEMS

US Patent #7,819,388

SuperTie[™]
 Specified Project: J.U.M.P.
 (Jack Urban's Meeting Place)
 Boise, Idaho

Reduces Form-Tie Costs up to 70%

SUPERTIE VS **SNAPTIE**

- Reduced Labor Costs** – No plugging, patching or sacking.
- Reusable Parts** – Simply strip hardware from form, reuse over 100 times.
- Superior Finishes** – Eliminates rust and corrosion. Strips flush to concrete.
- Variety of Colors** – We offer colors to blend with the wall. Custom colors available.
- Reduced Inventory** – **ONE** SuperTie[™] fits any wall width.

Strip Form

Cut Flush

Tie Disappears

NEVER PATCH . . . NEVER RUST

Reduced Labor Costs – SuperTie[™] Fiberglass Form-Ties WILL NOT RUST ELIMINATING THE LABOR COSTS associated with break-back and subsequent plugging and patching processes, when using metal snap ties.

Compatible – are compatible with all job-built and commercially available form systems. There are three levels of tensile strength systems: 6K, 15K & 50K. Always figure a 2:1 safety factor.

Extends Form Life – All forms and form liners strip easily from the structure without damage from the ties.

*WARNING: Safe working loads are at a rate of a 2:1 safety factor of the ultimate tensile strength.
