

Rmax Nailable Base-3

Insulation for Above the Deck

Rmax Nailable Base-3 is an energy efficient thermal insulation board bonded to a nailing panel. It comes standard with Multi-Max® FA-3 bonded to 7/16" APA rated OSB. For all FSC® Chain of Custody orders (or upon request), Nailable Base-3 can also be made with Ultra-Max® as the insulation layer (FSC® C101940).

This insulation is suitable for use in insulated roofing system constructions utilizing concrete, slate or clay roofing tiles. It may also be used with wood shakes and metal panel roofing systems. In some cases, Nailable Base-3 can be used with asphalt shingles. Consult shingle manufacturer for information regarding warranty and application methods over Nailable Base-3.

Nailable Base-3 is approved for use in new roofing constructions over steel, wood, non-combustible and certain types of nailable roof decks.

Rmax Nailable Base-3 Benefits

- Durable glass fiber/organic or coated glass fiber facers
- Available with alternate nailing surfaces
- Allows for normal expansion of wood
- Reduces thermal loss
- Saves on energy dollars
- Reduces material and labor costs
- Contributes towards LEED® credits
- Offers tax credits, where applicable

Gateway Chapel - Grapevine, Texas
