Protect your floors with a concrete repair system that fully cures in 10 minutes!

Now you can repair cracks and spalls to a smooth finish in a fraction of the time it takes with ordinary products. **Roadware 10 Minute Concrete Mender™** is a revolutionary new two-part hybrid urethane for repairing concrete. It's nearly water thin for deep penetration and it won't pop out like epoxy because it never gets brittle.

NO POT-MIXING AND NO WASTE.

Roadware 10 Minute Concrete Mender™ is packaged in uniquely designed ratio-packs that completely mix the material at the point of application. No pot-mixing and no unused material. Difficult repairs are now simple, just clean the area, prime with 10 Minute Concrete Mender, add manufactured sand, and flood with additional 10 Minute Concrete Mender. In 10 minutes you'll get a tough 4500 psi polymer concrete that will stay in place permanently.

Roadware 10 Minute Concrete Mender™
“The advanced concrete repair material that repairs concrete from the inside out.”

This concrete core sample shows the extent of penetration into concrete when photographed under UV light.

GREAT FOR ALL INDUSTRIAL FLOORS.

Roadware 10 Minute Concrete Mender™ is extremely tough and will withstand even the harshest punishment. Great for freezers... may be applied at temperatures as low as -20° F with excellent results. High chemical resistance, perfect for containment areas. Re-coat in 10 minutes, will accept primers and industrial coatings in just 10 minutes after application. Now prep-work and coatings can be applied in the same day!

SAFETY

Smooth floors are safe floors.

Cracked and uneven floors are a leading cause in workplace accidents. Trips, falls, and tipped loads can lead to life changing accidents that can cause a really bad day for your entire organization. Keeping floors in good repair with **Roadware 10 Minute Concrete Mender™** will help maintain a safe workplace.

OPERATIONS

A workspace that looks good, will work good.

Your floors support your entire operation. Clear and smooth floors free from cracks and spalls are more productive and bring confidence to your entire team. **Roadware 10 Minute Concrete Mender™** can permanently repair cracks, spalls and joints. No more disappointing repairs that last only a few weeks. Retail operators like Wal-Mart, Home Depot, and Target spend millions of dollars to make their floors look good. They know that good looking floors and good looking stores lead to greater revenue. The same is true for warehouse floors and production floors. Your team will feel better, will be more productive, and will work better.

PROFITABILITY

Bad floors steal money.

Floors with cracks and spalls steal money from the bottom line. Just think about all the costs related to floor issues.

- Workers Comp claims attributed to accidents.
- Workers Comp claims due to repetitive stress injury of fork truck drivers.
- Fork truck maintenance and repair.
- Damage from tipped loads.
- Contaminated product from loose debris in floor cracks.
- Damage floors will get worse if not addressed quickly.
- Higher cleaning costs.

PRODUCTIVITY

Smooth floors are productive floors.

Floors with cracks and spalls can slow down your operation. When a fork truck has to slow down for a spalled control joint, productivity suffers. When a team member needs to summon help to push a cart through a threshold, productivity suffers. Using **Roadware 10 Minute Concrete Mender™** to repair floor bottlenecks that slow everything down will help productivity.
