**Re: Publication of New Code Evaluation Report**

Valued ROCKWOOL Partners,

We are pleased to share with you the publication of our new QAI Code Evaluation Report, numbered CERus-1004, covering select ROCKWOOL products.

This new report verifies to you, your customers, regulatory agencies, authorities having jurisdiction (AHJ), architects, specifiers, contractors, engineers, and code officials that the ROCKWOOL products listed herein comply with the stated code requirements.

In addition, the report also clearly indicates to code officials how to identify the products, approved applications of the products, and installation requirements, all of which will facilitate fast and efficient inspections on your building projects.

Products evaluated:

Comfortbatt®

Comfortboard® 80

Comfortboard® 110

Toprock® DD

Multifix™

CSI Division:

Thermal and Moisture Protection

Section 07 21 00 – Thermal Insulation

Section 07 22 00 – Roof and Deck Insulation

Compliance with the following codes:

2018, 2015 International Building Code (IBC)

2018, 2015 International Residential Code (IRC)

**Properties evaluated:**

- Thermal Insulation – Physical Performance (ASTM C612, C665, C726)
- Surface Burning Characteristics (ASTM E84)
- Fire-resistance Rated Construction (2018 / 2015 IBC Table 721.1(3))
- Non-Combustibility (ASTM E136 - Passed)

**Evaluated ROCKWOOL products are approved for the following:**

|  |  |
|--|--|
| APPROVED TYPES OF CONSTRUCTION:  | Type IAB, Type IIAB, Type IIIAB, Type IV, Type VAB   |
| APPROVED USE: <ul style="list-style-type: none"> <li>• Comfortbatt</li> <li>• Comfortboard® 80</li> <li>• Comfortboard® 110</li> </ul> | Thermal insulation for use in walls, floors, and ceilings in Types I-V construction.   |
| APPROVED USE: <ul style="list-style-type: none"> <li>• Toprock® DD</li> <li>• Multifix™</li> </ul>                                     | Thermal insulation for use in roofs in Types I-V construction.   |
| APPROVED INSTALLATIONS: <ul style="list-style-type: none"> <li>• Comfortbatt®</li> </ul>   | <ul style="list-style-type: none"> <li>• Bearing and non-load bearing exterior and interior walls.</li> <li>• Attics and Crawlspace as an ignition barrier.</li> <li>• Floors / ceilings.</li> </ul> |
| APPROVED INSTALLATIONS: <ul style="list-style-type: none"> <li>• Comfortboard® 80</li> <li>• Comfortboard® 110</li> </ul>              | <ul style="list-style-type: none"> <li>• Bearing and non-load bearing exterior and interior walls.</li> <li>• Attics and Crawlspace as an ignition barrier.</li> </ul>                               |
| APPROVED INSTALLATIONS: <ul style="list-style-type: none"> <li>• Toprock® DD</li> <li>• Multifix™</li> </ul>                           | <ul style="list-style-type: none"> <li>• Roofs including fire-classified roof assemblies.</li> </ul>   |

## EXTERNAL COMMUNICATION

The report is published by QAI, an independent third-party testing, inspection and certification agency accredited by the International Accreditation Service (IAS) per Section 1703 of the IBC. It has been designed to meet the performance requirements of IBC Section 1703.4.

The full Code Evaluation Report, numbered CERUS-1004, is available at:

<https://qai.org/wp-content/uploads/2015/09/CERUS-1004.pdf>

By referencing this report in your specifications and designs, you can be confident that the ROCKWOOL products specified will meet your code requirements and satisfy code officials.

Should you have any questions, please do not hesitate to reach out to the Technical Services team at 1-877-823-9790 or [techservice@rockwool.com](mailto:techservice@rockwool.com).
