Subject: **Safety Data Sheets (SDS) for Mesh Products**

To Whom It May Concern:

Please note that regulations regarding SDS require companies that manufacture or distribute hazardous chemicals to provide a specifically formatted SDS to all who need or request one.

Sika Facades is a Responsible Care® company and, in being so, demonstrates the highest commitment to product stewardship and the proper handling of all hazardous chemical products that are marketed and/or distributed. The safety of the end users of our products is of the highest priority.

With regards to Sika Facades Reinforcing Meshes, SikaWall® Sheathing Fabric, DiamondShield, SikaWall Drainage Mat, SikaWall Drainage Mat DF, SikaWall Permalath 1000 and SikaWall SRT Mesh; these products are regarded as articles rather than chemicals. Being such, SDS on these articles are not required under OSHA laws and regulations.

We hope this meets your needs. If you have any questions, please contact Technical Support at 1-800-589-1336.
