# ELIMINATE MOISTURE FAILURES

## VC-5

### MOISTURE VAPOR CONTROL - CURE & SEAL

SINAK VC-5 is a ready to use, zero VOC Concrete Moisture Vapor Control System that eliminates flooring, roofing and coating failures due to moisture, moisture vapor, hydrostatic pressure, and alkalinity emanating from or through new concrete.

VC-5 replaces all curing methods, moisture mitigation and remediation systems. Use of VC-5 allows for installation of any flooring, coating or roofing system as soon as 7 days after concrete placement. VC-5 offers a non-prorated 20-year flooring replacement warranty.

VC-5 will prevent and reduce moisture vapor rates up to 50lbs/1000 ft<sup>2</sup>·24hrs and RH up to 100% to well below accepted levels for subsequent application of flooring and coating systems such as epoxies, vinyl tiles, sheet vinyl, carpet, wood flooring, roofing, deck coatings and more.

20-YEAR MOISTURE VAPOR  
CONTROL WARRANTY

ELIMINATES  
OFF GASSING/PINHOLES

COMPATIBLE WITH ALL  
COATINGS, FLOORING,  
& ROOFING SYSTEMS

CONTROLS  
HYDROSTATIC PRESSURE
