

Bondbreakers

SPECCHEM
Solution to Service

“We Have Concrete Covered”

www.specchemllc.com

SpecHard GREEN CONSCIOUS

Water-Based Silicate Sealer / Densifier

A proprietary, colorless chemical solution that increases the wear surface strength of concrete floors subjected to pedestrian and vehicle traffic.

LithSeal SC GREEN CONSCIOUS

Lithium Silicate Concrete Sealer/Densifier

A premium lithium silicate sealer/densifier for concrete surfaces. Lith-Seal SC deeply penetrates and reacts with cured concrete.

SC Cure 500 GREEN CONSCIOUS

Concrete Curing Compound

A leading edge technology, concrete curing compound that was developed to cure hard-troweled concrete to be treated with a lithium silicate hardener/densifiers like LithSeal SC.

SpecTilt WB **GREENCONSCIOUS**

Reactive water-based bondbreaker

A chemically reactive water-based tilt-up bondbreaker specially engineered to provide a clean, easy lift of tilt-up panels.

SpecTilt 100

Premium reactive solvent-based tilt-up bondbreaker

A chemically reactive tilt-up bondbreaker specially engineered to provide a clean, easy lift of tilt-up panels.

SpecTilt QD

Quick drying reactive solvent-based bondbreaker

A chemically reactive tilt-up bond breaker specially engineered to provide a clean, easy lift of tilt-up panels.

SpecTilt EX

VOC Compliant reactive solvent-based bondbreaker

A chemically reactive tilt-up bond breaker specially engineered to provide a clean, easy lift of tilt-up panels for cures requiring less than 30 g/L VOC, such as LADCO, OTC and Canada.
