

Epoxy Mortar Repair Kit

SPECPOXY MORTAR is a three component, 100% solids, multi-purpose, epoxy mortar. The system combines a high quality epoxy binder with an engineered blend of graded aggregates.

✓ Benefits

- Superior bond, compressive, and flexural strength when compared to cementitious systems.
- Long Pot Life for applications between 60-90° F
- Use for high traffic areas ie: loading docks, ramps.
- Pre-measured proportions for easy installation
- Dries to a concrete gray color
- Trowel-able consistency for horizontal applications
- Superior abrasion, chemical & impact resistance
- Moisture insensitive/Stain resistant
- Solvent-free (VOC Compliant)
- Foot traffic in 12 hours; Vehicle in 24 hours
- USDA accepted for Indirect Food Contact

Usage

- Industrial/commercial
- Warehouse floors
- Ramps
- Loading docks
- Rebuilding joint nosings

Standards

- Material shall be a 100% solids, ASTM C81, Type III, Grade 1, multi-purpose trowelable epoxy mortar equal to SPECPOXY MORTAR.

Packaging

1/2 cubic foot unit

- Component A 1/2 gal
- Component B 1/2 gal
- Component C 1-50 lb. bag

1.0 cubic foot unit

- Component A 1 gal
- Component B 1 gal
- Component C 2- 50 lb. bags
