

40% solids water-based penetrating silane sealer

SPECSILANE 40 WB is a 40% solids, 100% reactive, waterborne silane sealer. This clear, penetrating, breathable water repellent is designed for use on interior and exterior above grade concrete or masonry surfaces. SPECSILANE 40 WB penetrates the surface and bonds directly with the substrate, which results in a surface that is highly resistant to both moisture and salt.

✓ Benefits

- Provides excellent chloride screen
- Excellent water repellency while maintaining breathability
- VOC compliant - water-based
- Reduces the effects of freeze-thaw cycling and weathering on concrete structures
- Long-lasting protections for new as well as old concrete surfaces
- Dries tack-free and skid resistant
- Colorless and non-yellowing

Usage

- Concrete
- Masonry surfaces
- Decks
- Pavements
- Parking structures
- Ramps
- Bridges
- Marine platforms

Packaging

- 55 gallon drums (208.2 L)
- 5 gallon pails (18.93 L)
