your next project. 877-464-7834.

✓ **Large diameter, quick-twist handle**

- easy to grip/adjust while wearing concrete gloves and gives the ability to apply a substantial amount of torque

✓ **No tools necessary** to clamp screed hook onto stake or rebar

✓ **"Sight Window"** on both sides of the barrel allows user to quickly locate top of slab elevation

✓ **Internal, concealed coil threads**

- stay clean in harsh concrete environments
- allows for **fast, easy adjustment** in the field

✓ **Superior quickness and ease of clamping** to either a stake or rebar

BEAST® HOOK IS A **FASTER, EASIER** WAY TO SET 2X4 OVERHEAD SCREEDS.

The latest innovation in Stego's award-winning Beast Concrete Accessories Line is **Beast Hook**, a faster, easier way to set 2x4 overhead screeds.

Beast Hook eliminates the need for separate tools necessary when setting traditional screed hooks. Instead, it is designed with an easy grip large diameter, quick-twist handle for lightning-fast adjustment in the field, even while wearing concrete gloves. You can use **Beast Hook** on any round nail stake up to 3/4" diameter (import or domestic) and on #4, #5 or #6 rebar.

Contractors can easily locate their top of slab elevation through **Beast Hook's** revolutionary "sight windows", conveniently located on

both sides of the barrel. No more adjust, stop and check / adjust, stop and check.... Stego Industries is striving to give you products that make your crews more efficient on the jobsite, which translates to savings for the contractor.

Beast Hook is *engineered to be re-used over and over again for maximum value*. Internal, concealed coil threads stay clean in harsh concrete environments and allow for hassle-free installation. No more rusty threads, No more labor intensive difficult to use, old-fashioned screed hooks.
