

A TERMITE AND VAPOR BARRIER SOLUTION

2-in-1 product solution

Pango® Wrap Termite/Vapor Barrier is a physical barrier against Formosan termites and moisture vapor. Through patented and trade secret processes, Pango Wrap combines uniquely designed barrier materials with the flexibility and strength of extruded, high-performance polyolefin film into an easy-to-install, physical barrier against subterranean termites.

PANGO WRAP combines *low permeance, high strength,* and *longevity* to deliver **a revolutionary solution** to the construction industry.

PROTECTION With **Pango's** Line of Accessory Products

Pango® Tape

A low-permeance tape designed for protective sealing, hanging, seaming, splicing, and patching applications where a highly conformable material is required. It has been engineered to bond specifically to Pango Wrap, making it ideal for sealing Pango Wrap seams and penetrations.

Pango Claw®

A multi-layered tape that is used to seal Pango Wrap along its terminating edges (interior and perimeter) to the slab while the concrete is placed. Pango Claw allows wet concrete to cast into the textured top surface to form a mechanical bond/seal.
