STEGO INSTALLATION SUPPORT

Stego Industries, LLC's large nationwide network of full-time technical sales managers provides unmatched local support and service to augment the consistent, high-quality performance of our* Stego, Pango, and Drago barrier products. Incorporating industry standards and recommendations in project specifications, as well as evaluating/selecting appropriate products for projects, are only components to achieving an effective barrier system. The fact is, without a proper installation the first time, moisture, termite, and/or vapor problems and other issues can still occur and fixing the problem(s) after concrete placement can be extremely costly. Stego Installation Support is a no-cost service designed to help achieve an effective installation and add value for project teams.

PANGO® WRAP TERMITE/VAPOR BARRIER

STEGO® WRAP VAPOR BARRIER/RETARDER

DRAGO® WRAP VAPOR INTRUSION BARRIER

SUPPORT AVAILABLE:

- **Provide full submittal documentation**, including data sheets, testing certification, CAD details, BIM objects, LEED data sheets, physical samples, etc.
- **Participation in pre-installation conference** (by phone or in-person) with design and construction teams to discuss the barrier membrane installation and unique project characteristics.
- **Technical support** in the form of cost/benefit analysis of potential solutions to assist in solving even the most challenging project conditions.
- **Advanced training for project teams** (installing crew, designers, owners, inspectors) to walkthrough installation standard guidelines and project-specific details.
- **Review of representative portions of the Stego barrier membrane installation** (digitally or in-person, when possible) prior to concrete placement to help ensure compliance with governing installation standard, ASTM E1643, and Contract Documents.
- **Letter from Stego Industries (available upon request) to document installation review** (in the manner described above) and consistency with governing installation standard, ASTM E1643.
- **Installation Checklist.**

VALUE-ADDED BENEFITS:

- Verification of authentic Stego, Pango, and Drago barrier products.
- Helps ensure an effective barrier membrane installation to prevent concrete moisture issues or costly reactive solutions.
- Adds value to the project team's QA/QC efforts and reports.
- Demonstrates quality-driven focus which improves relationship with client(s).
- Educates Project Team members about proper barrier membrane installation for future efficiencies.
- Potential labor and cost savings through advanced training and new technologies.
- Installation Review Letter (available upon request) from manufacturer added to project manual.
- Installation support services are at no cost.

Please also refer to Stego's Installation Instructions. Stego is committed to providing either an in-person or digital site review on every project where Stego Industries' products are used. In order to provide an in-person review, please provide as much advance notice as possible, and Stego reserves the right to perform digital review if circumstances warrant, or under extenuating circumstances services requiring travel may incur fees related to expenses and/or time. Stego does not employ design or inspection professionals, but does maintain a thorough understanding of the installation techniques required by ASTM E1643, Stego's installation instructions, and other similar standards. Stego's Installation Support program reviews representative portions of the project footprint that have been prepared for concrete placement for the purpose of advising on whether that section complies with the installation recommendations; Stego cannot and does not provide full-site inspections.
