

EZ Path® Retrofit Device

Overfilled cable sleeves are the bane of every facilities team, bring these deficient openings back into code compliance with the EZ Path Retrofit Device. Its two-part clam shell design installs around projecting sleeves and cable bundles restoring fire and smoke leakage performance. The EZ Path Retrofit Device quickly and easily retrofits sleeves of up to 100% visual fill restoring fire performance without the need for additional firestop products.

Features & Benefits

- Easy to install
- No additional firestopping required
- Sized for 2 in and 4 in trade size EMT or rigid steel conduit sleeves or stubs
- 50% to 100% cable fill
- Works with extended or flush sleeves
- Bring overfilled sleeves back into code compliance
