

Sto Limestone

The Look of Natural Stone

Create the smooth, classic look of stone at a fraction of the cost with Sto Limestone – the easy-to-install wall finish with extensive design possibilities.

Sto Limestone

Less weight, less cost

Sto Limestone gives you the beauty of natural stone in a lightweight, easily installed architectural wall finish. When designed as part of a Sto cladding system, this durable 100% acrylic finish can create the look of stone arches, reliefs and other architectural elements while reducing the load of additional weight on your structure.

Flexible, safe application

Sto Limestone is ideal for new construction or renovation over StoTherm insulated wall claddings as well as prepared concrete, masonry and plaster substrates. Use it as a full-wall finish or for accent areas to replicate a smooth stone look. Sto Limestone is safe and nontoxic and cleans up with water.

Water resistant

Sto Limestone adds an extra layer of protection by repelling water and wind-driven rain.

Premium finish

Sto Limestone achieves its natural stone appearance by utilizing a two pass application of first the 1.0 finish texture and then the Freeform finish texture. These textures are available in the Stolit Lotusan and Stolit product lines. The elastomeric option combines Sto Powerflex® Fine and Sto Powerflex® Freeform for use with StoPowerwall™ Stucco.

Expert matching

Sto Limestone color is integral and can easily achieve a variety of natural stone colors, including custom colors, for your project. Our expert color matching can provide you with a match to many of the limestone colors found around the world.

Sto Limestone Features and Benefits

Feature	Benefit
Limestone Look	The beauty of natural stone in a durable, acrylic-based finish
Lightweight	Cost savings on materials, application and structural requirements
Integral Color	Lasting uniform color and a full palette of color choices
Moisture Resistant	Repels water and resists wind-driven rain
Water-based	Safe, nontoxic, cleans up with water
Stolit Lotusan with Lotus-Effect® technology	Self cleaning properties that extend recoat cycles
