

## **Stolit® Lotusan®**

The exterior textured finish  
with pronounced  
self-cleaning properties

Replicating the lotus plant's ability to send rain drops rolling gently off its leaves, Stolit Lotusan exterior finish resists dirt pick-up while keeping walls clean and attractive. Simply put, exterior walls finished with Stolit Lotusan are cleansed by rainfall. This is *Lotus-Effect®* technology. Just one application of this innovative finish provides long-lasting protection for exterior walls.

# Stolit® Lotusan®

## Simulating nature

Through biomimicry research and development, Sto has replicated nature. Our efforts have enabled us to combine biology and technology in an innovative manner to produce the new exterior textured finish with *Lotus-Effect*® technology. Stolit Lotusan is a unique lasting finish that helps buildings preserve their fresh looks longer than standard finishes.

Over time, standard exterior finishes pick up and hold dirt causing a prematurely aged appearance.

Exterior walls finished with Stolit Lotusan are cleaned with every raindrop, for a lasting clean and attractive appearance.

Features	Benefits
Patented technology	The only exterior finish with <i>Lotus-Effect</i> ® technology
Durable	Longer lifecycle, needs fewer recoats
Self-cleaning properties	Long-lasting curb appeal with reduced maintenance requirements
Super Hydrophobic - repels water	Keeps surface drier and more resistant to mold, mildew and algae than standard finishes
Available in a variety of textures and colors	Provides design freedom

Specify the only finish with *Lotus-Effect*® technology, Stolit Lotusan. Contact your local Sto distributor or sales representative for a demonstration of this remarkable new finish with a pronounced self-cleaning effect.

Visit our web site [www.stocorp.com](http://www.stocorp.com) for more information about Stolit Lotusan.

### Standard Acrylic Finish

Standard finish surfaces are less hydrophobic and wet out quickly, absorbing a lot of water. Dirt particles stick easily.

### How Stolit Lotusan Works

Stolit Lotusan finish has a super hydrophobic surface that reduces the contact area for dirt and water. Raindrops roll off, taking loose particles of dirt along with them. Water absorption is reduced by as much as 50% when compared to ordinary acrylic finishes, even after extended weather exposure.
