### Mixed Truckload Guidelines

- Fiberglas™ Insulation Products minimum is 25% of a truck.<sup>1</sup>
- Thermafiber® Pro Section WR Pipe Insulation maximum is 50% of a truck.<sup>2</sup>
- Thermafiber® Board Insulation Products maximum is 50% of a truck.<sup>2</sup>

<sup>1</sup> Mixed trucks that do not meet the guidelines are subject to a \$500 convenience fee.

<sup>2</sup> If the order is greater than the maximum order quantities allowed, it will ship directly from the primary stocking location and will not be eligible for the mixed truck program.

**Please contact your local Owens Corning area sales manager for more information.**
