

LOW-CARBON WIRE

Chain Link Wire

Hot Dipped Galvanized (Zinc Coated)

Tree Island Steel galvanized chain link wire is manufactured to optimize our customers' chain link weaving machine performance. Our state-of-the-art zinc application process provides an industry-leading quality surface finish, and provides a wide variety of zinc coating thickness options. Offered in 6 to 11 gauge.

Tree Island Steel chain link wire is manufactured to ASTM specifications of ASTM A817 Type II, AASHTO M1 81 Type II, and CAN/CGSB-138.1, Type 1, Class A.

Diameter: 0.106" to 0.192" (2.69 mm to 4.88 mm)

Packaging: Uniform, pattern-laid, continuous length coils in wrapack – approx. 2,200 lb (998 kg)

Poly Vinyl Chloride (PVC) Coated

Tree Island Steel galvanized PVC coated chain link wire is available in green, black, brown and white.

Tree Island Steel PVC chain link wire meets or exceeds:

US: ASTM F668 Class 1

Canada: CAN/CGSB 138.1, Type 1, Class B

Diameter: 0.120" to 0.192" (3.08 mm to 4.88 mm)

Packaging: Tubular carrier – approx. 1,800 lb (816 kg)
