

ENEREDGE® EQUIPMENT & ACCESORIES

Tremco Spacer Application Hand Tool

The Tremco Spacer Application Hand Tools are used to cleanly apply spacer to the IG unit's glass perimeter, while precisely controlling start point, inset, and notch locations. The tools allow for either inside cutting, that preserves the integrity of the spacer's moisture vapor barrier, or back cutting and provide a wide range of applied perimeter sealant options.

PART NUMBER	DESCRIPTION
ENAINT 502	Inside Notch/Punched Front-Cut
ENAONT 502	Outside/Back Notch Tool

EnerGrip Muntin Clips

Available in a wide variety of configurations that vary with airspace and muntin bar styles, these polypropylene clips precisely secure the muntin bar to the spacer and do not impede on the sealing area of the applied secondary sealant. Parts are available in both gray and black and are sold in boxes of 5,000 pieces per configurations, depending on type. Contact your Tremco Sales Representative or Tremco Technical Services for assistance with type/SKU identification.

- Hydroscopic
- No off-gassing in testing
- Precise fit

Desiccant Test Kit

A complete kit for determining if EnerEDGE spacers kept in storage are still usable. Refer to [Technical Bulletin IG 5.1, EnerEDGE Desiccant Test Kit and Instructions](#), for more information.

Hot Melt Troweling Pads

These no-stick, solid silicone rubber pads protect the operator during hot-closing of sealant corners for the elimination of cold joints. Pads are sized at 1.5" wide x 3.5" long x 0.175" thick (38 mm x 89 mm x 4 mm) and are sold in boxes of 50.

PART NUMBER	DESCRIPTION
ENAGST305 502	GST3 White Troweling Pad

EnerEDGE Storage Drums

These storage drums are used to keep opened EnerEDGE spools, either the larger Auto spools or smaller Mini spools, fresh. Storing EnerEDGE in drums will preserve the desiccant between extractions.

- Fitted to receive spools
- Protects active desiccant in spacer
- Helps organize storage

PART NUMBER	DESCRIPTION
ENADRUM 762	Mini Spool Storage Drum
ENADRUM 763	Auto Spool Storage Drum

Silicone Strips for Glass Carts

These solid silicone strips protect IG units when placed on glass carts. Strips are available in widths of 1-1/2" and 6".

PART NUMBER	DESCRIPTION
ENAGST345 504	GST3 WHITE 1.5" X 45FT Roll
ENAGST35 504	GST3 WHITE A158 6" X 35FT Roll

Warranty

A repair or replacement warranty is available on all Tremco products. Visit www.tremcosealants.com/warranties/ for details.
