We certify that the Paraseal 20-Mil GM/LG sheet membrane system meets the physical properties per the Tremco Incorporated published data sheets, specifications, and application instructions. The following pertain to the Paraseal 20-Mil HDPE GM/LG Membrane and are results or recent testing:

- 20-Mils of a high-density polyethylene sheet membrane, (HDPE).
- One layer of spun polypropylene protection mesh laminated over the sodium bentonite clay.
- Life Expectancy of HDPE depends upon the specific application; however it is measured in potential hundred year increments as independently published by others.
