

# SAFETY DATA SHEET

## 1. Identification

## Material name: SPECTREM 800 LIMESTONE Material: 973805 333

## Recommended use and restriction on use

Recommended use: Sealant Restrictions on use: Not known.

#### Manufacturer/Importer/Supplier/Distributor Information

Tremco U.S Sealants 3735 Green Road Beachwood OH 44122 US

Contact person: Telephone: Emergency telephone number: EH&S Department 216-292-5000 1-800-424-9300 (US); 1-613-996-6666 (Canada)

## 2. Hazard(s) identification

## Hazard Classification

## **Health Hazards**

| Acute toxicity (Inhalation - dust and mist) | Category 4 |
|---------------------------------------------|------------|
| Carcinogenicity                             | Category 2 |
| Toxic to reproduction                       | Category 2 |

#### **Unknown toxicity - Health**

| Acute toxicity, oral              | 17.27 % |
|-----------------------------------|---------|
| Acute toxicity, dermal            | 18.28 % |
| Acute toxicity, inhalation, vapor | 99.07 % |
| Acute toxicity, inhalation, dust  | 60.58 % |
| or mist                           |         |

#### Label Elements

#### Hazard Symbol:

Signal Word:

Warning

| Hazard Statement:                          | Harmful if inhaled.<br>Suspected of causing cancer.<br>Suspected of damaging fertility or the unborn child.                                                                                                                                                       |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautionary<br>Statements                |                                                                                                                                                                                                                                                                   |
| Prevention:                                | Avoid breathing dust/fume/gas/mist/vapors/spray. Use only outdoors or in a well-ventilated area. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. |
| Response:                                  | IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER/doctor if you feel unwell.                                                                                                                                        |
| Storage:                                   | Store locked up.                                                                                                                                                                                                                                                  |
| Disposal:                                  | Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.                                                                              |
| Hazard(s) not otherwise classified (HNOC): | None.                                                                                                                                                                                                                                                             |

## 3. Composition/information on ingredients

#### **Mixtures**

| Chemical Identity            | CAS number | Content in percent (%)* |
|------------------------------|------------|-------------------------|
| Calcium carbonate            | 471-34-1   | 30 - 60%                |
| Titanium dioxide             | 13463-67-7 | 0.5 - 1.5%              |
| Stearic acid                 | 57-11-4    | 0.5 - 1.5%              |
| Octamethylcyclotetrasiloxane | 556-67-2   | 0.1 - 1%                |
| Toluene                      | 108-88-3   | 0.1 - 1%                |

\* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

| 4. First-aid measures |                                                                                                                                                                                 |
|-----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ingestion:            | Call a POISON CENTER/doctor if you feel unwell. Rinse mouth.                                                                                                                    |
| Inhalation:           | Move to fresh air.                                                                                                                                                              |
| Skin Contact:         | Wash skin thoroughly with soap and water. Get medical attention if symptoms occur.                                                                                              |
| Eye contact:          | Any material that contacts the eye should be washed out immediately with water. If easy to do, remove contact lenses. If eye irritation persists: Get medical advice/attention. |
| Most important sympto | ms/effects, acute and delayed                                                                                                                                                   |
| Sumptomo              | May aquee akin and ave irritation                                                                                                                                               |

Indication of immediate medical attention and special treatment needed

## Treatment: Symptoms may be delayed. 5. Fire-fighting measures General Fire Hazards: No unusual fire or explosion hazards noted. Suitable (and unsuitable) extinguishing media Suitable extinguishing Use fire-extinguishing media appropriate for surrounding materials. media: Unsuitable extinguishing Do not use water jet as an extinguisher, as this will spread the fire. media: Specific hazards arising from During fire, gases hazardous to health may be formed. the chemical: Special protective equipment and precautions for firefighters Special fire fighting No data available. procedures: Special protective equipment Self-contained breathing apparatus and full protective clothing must be for fire-fighters: worn in case of fire. 6. Accidental release measures Personal precautions, No data available. protective equipment and emergency procedures: Methods and material for Collect spillage in containers, seal securely and deliver for disposal according to local regulations. containment and cleaning up: **Notification Procedures:** In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations. Do not contaminate water sources or sewer. Prevent further leakage or **Environmental Precautions:** spillage if safe to do so. 7. Handling and storage Precautions for safe handling: Do not handle until all safety precautions have been read and understood. Obtain special instructions before use. Use personal protective equipment

as required. Ventilate well, avoid breathing vapors. Use approved respirator if air contamination is above accepted level. Use mechanical ventilation in

case of handling which causes formation of dust.

#### Conditions for safe storage, Store locked up. including any incompatibilities:

## 8. Exposure controls/personal protection

## **Control Parameters**

## **Occupational Exposure Limits**

| Chemical Identity                           | Туре         | Exposure Limit Values                                   | Source                                                                         |
|---------------------------------------------|--------------|---------------------------------------------------------|--------------------------------------------------------------------------------|
| Calcium carbonate - Total dust.             | PEL          | 15 mg/m3                                                | US. OSHA Table Z-1 Limits for Air<br>Contaminants (29 CFR 1910.1000) (02 2006) |

#### **Biological Limit Values**

| Chemical Identity                                                         | Exposure Limit Values          | Source              |
|---------------------------------------------------------------------------|--------------------------------|---------------------|
| Toluene (o-Cresol, with<br>hydrolysis: Sampling time:<br>End of shift.)   | 0.3 mg/g (Creatinine in urine) | ACGIH BEI (03 2013) |
| Toluene (toluene: Sampling<br>time: Prior to last shift of work<br>week.) | 0.02 mg/l (Blood)              | ACGIH BEI (03 2013) |
| Toluene (toluene: Sampling time: End of shift.)                           | 0.03 mg/l (Urine)              | ACGIH BEI (03 2013) |

## Appropriate Engineering Controls

Mechanical ventilation or local exhaust ventilation may be required. Observe good industrial hygiene practices. Observe occupational exposure limits and minimize the risk of inhalation of dust.

## Individual protection measures, such as personal protective equipment

| General information:                | Good general ventilation (typically 10 air changes per hour) should be used.<br>Ventilation rates should be matched to conditions. Supplementary local<br>exhaust ventilation, closed systems, or respiratory and eye protection may<br>be needed in special circumstances, such as poorly ventilated spaces,<br>heating, evaporation of liquids from large surfaces, spraying of mists,<br>mechanical generation of dusts, drying of solids, etc. |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye/face protection:                | Wear safety glasses with side shields (or goggles).                                                                                                                                                                                                                                                                                                                                                                                                |
| Skin Protection<br>Hand Protection: | Use suitable protective gloves if risk of skin contact.                                                                                                                                                                                                                                                                                                                                                                                            |
| Other:                              | Wear suitable protective clothing.                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Respiratory Protection:             | In case of inadequate ventilation use suitable respirator. Seek advice from local supervisor.                                                                                                                                                                                                                                                                                                                                                      |
| Hygiene measures:                   | Observe good industrial hygiene practices. Wash hands before breaks and immediately after handling the product. Do not handle until all safety precautions have been read and understood. Obtain special instructions before use.                                                                                                                                                                                                                  |

| Flammability (solid, gas):                 | No                                                                                          |
| Upper/lower limit on flammability or explo | osive limits                                                                                |
| Flammability limit - upper (%):            | No data available.                                                                          |
| Flammability limit - lower (%):            | No data available.                                                                          |
| Explosive limit - upper (%):               | No data available.                                                                          |
| Explosive limit - lower (%):               | No data available.                                                                          |
| Vapor pressure:                            | No data available.                                                                          |
| Vapor density:                             | Vapors are heavier than air and may travel along the floor and in the bottom of containers. |
| Relative density:                          | 1.35                                                                                        |
| Solubility(ies)                            |                                                                                             |
| Solubility in water:                       | Insoluble in water                                                                          |

| Solubility (other):<br>Partition coefficient (n-octanol/water): | No data available.<br>No data available. |
|-----------------------------------------------------------------|------------------------------------------|
| Auto-ignition temperature:                                      | No data available.                       |
| Decomposition temperature:                                      | No data available.                       |
| Viscosity:                                                      | No data available.                       |
|                                                                 |                                          |

## 10. Stability and reactivity

| Reactivity:                          | No data available.                                                                              |
|--------------------------------------|-------------------------------------------------------------------------------------------------|
| Chemical Stability:                  | Material is stable under normal conditions.                                                     |
| Possibility of hazardous reactions:  | No data available.                                                                              |
| Conditions to avoid:                 | Avoid heat or contamination.                                                                    |
| Incompatible Materials:              | Epoxides. Avoid contact with acids and oxidizing substances. Isocyanates.                       |
| Hazardous Decomposition<br>Products: | Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors. |

## 11. Toxicological information

## Information on likely routes of exposure

| Inhalation:   | In high concentrations, vapors, fumes or mists may irritate nose, throat and mucus membranes. |
|---------------|-----------------------------------------------------------------------------------------------|
| Skin Contact: | May be harmful in contact with skin.                                                          |
| Eye contact:  | Eye contact is possible and should be avoided.                                                |
| Ingestion:    | May be ingested by accident. Ingestion may cause irritation and malaise.                      |

## Symptoms related to the physical, chemical and toxicological characteristics

| Inhalation:   | No data available. |
|---------------|--------------------|
| Skin Contact: | No data available. |
| Eye contact:  | No data available. |
| Ingestion:    | No data available. |

## Information on toxicological effects

## Acute toxicity (list all possible routes of exposure)

Oral

Product: Not classified for acute toxicity based on available data.

| Specified substance(s):<br>Calcium carbonate                           | LD 50 (Rat): > 2,000 mg/kg                                           |
|------------------------------------------------------------------------|----------------------------------------------------------------------|
| Titanium dioxide                                                       | LD 50 (Rat): > 5,000 mg/kg                                           |
| Stearic acid                                                           | LD 50 (Rat): > 2,000 mg/kg                                           |
| Octamethylcyclotetrasilox ane                                          | LD 50 (Rat): > 4,800 mg/kg                                           |
| Toluene                                                                | LD 50 (Rat): 5,580 mg/kg                                             |

Immediate (Acute) Health Hazards Delayed (Chronic) Health Hazard

## SARA 302 Extremely Hazardous Substance

|                   | <u>Reportable</u> |                             |
|-------------------|-------------------|-----------------------------|
| Chemical Identity | quantity          | Threshold Planning Quantity |
| Cyclohexylamine   | 10000 lbs.        | 10000 lbs.                  |

#### SARA 304 Emergency Release Notification

| Chemical Identity     | Reportable quantity |
|-----------------------|---------------------|
| Toluene               | 1000 lbs.           |
| 2-Butylamine          | 1000 lbs.           |
| Cyclohexylamine       | 100 lbs.            |
| Copper phthalocyanine |                     |
| Acetic acid           | 5000 lbs.           |
| Barium sulfate        | 1000 lbs.           |

#### SARA 311/312 Hazardous Chemical

| Chemical Identity            | Threshold Planning Quantity |
|------------------------------|-----------------------------|
| Cyclohexylamine              | 500lbs                      |
| Calcium carbonate            | 10000 lbs                   |
| Titanium dioxide             | 10000 lbs                   |
| Stearic acid                 | 10000 lbs                   |
| Octamethylcyclotetrasiloxane | 10000 lbs                   |
| Toluene                      | 10000 lbs                   |

#### SARA 313 (TRI Reporting)

None present or none present in regulated quantities.

## Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

| Chemical Identity | <b>Reportable quantity</b> |
|-------------------|----------------------------|
| Cyclohexylamine   | lbs                        |

#### Clean Water Act Section 311 Hazardous Substances (40 CFR 117.3) None present or none present in regulated quantities.

#### **US State Regulations**

#### US. California Proposition 65

WARNING Cancer and Reproductive Harm - www.P65Warnings.ca.gov

US. New Jersey Worker and Community Right-to-Know Act <u>Chemical Identity</u> Calcium carbonate

## US. Massachusetts RTK - Substance List

<u>Chemical Identity</u> Calcium carbonate Cyclohexylamine

## US. Pennsylvania RTK - Hazardous Substances

Chemical Identity Calcium carbonate

## US. Rhode Island RTK

Chemical Identity Calcium carbonate

#### International regulations

#### Montreal protocol

Not applicable

## Stockholm convention

Not applicable

#### Rotterdam convention

Not applicable

## Kyoto protocol

Not applicable

## VOC:

| Regulatory VOC (less water and<br>exempt solvent) | : | 2 g/l  |
|---------------------------------------------------|---|--------|
| VOC Method 310                                    | : | 0.13 % |

| Inventory Status:<br>Australia AICS:     | One or more components in this product are not listed on or exempt from the Inventory. |
|------------------------------------------|----------------------------------------------------------------------------------------|
| Canada DSL Inventory List:               | All components in this product are listed on or exempt from the Inventory.             |
| EINECS, ELINCS or NLP:                   | One or more components in this product are not listed on or exempt from the Inventory. |
| Japan (ENCS) List:                       | One or more components in this product are not listed on or exempt from the Inventory. |
| China Inv. Existing Chemical Substances: | One or more components in this product are not listed on or exempt from the Inventory. |
| Korea Existing Chemicals Inv. (KECI):    | One or more components in this product are not listed on or exempt from the Inventory. |
| Canada NDSL Inventory:                   | One or more components in this product are not listed on or exempt from the Inventory. |
| Philippines PICCS:                       | One or more components in this product are not listed on or exempt from the Inventory. |
| US TSCA Inventory:                       | All components in this product are listed on or exempt from the Inventory.             |
| New Zealand Inventory of Chemicals:      | One or more components in this product are not listed on or exempt from the Inventory. |
| Japan ISHL Listing:                      | One or more components in this product are not listed on or exempt from the Inventory. |
| Japan Pharmacopoeia Listing:             | One or more components in this product are not listed on or exempt from the Inventory. |
