

TREMGLAZE® S600

Product Overview

TremGlaze® S600 is a single-component, neutral-cure, fast-skinning, medium-modulus silicone sealant, used for in-plant glazing applications.

Features & Benefits

- Exceptional skin and tack free time
- AAMA certified
- Superior strength characteristics
- Medium-modulus
- Ideally suited for the most demanding window and door installations
- +/- 25% movement

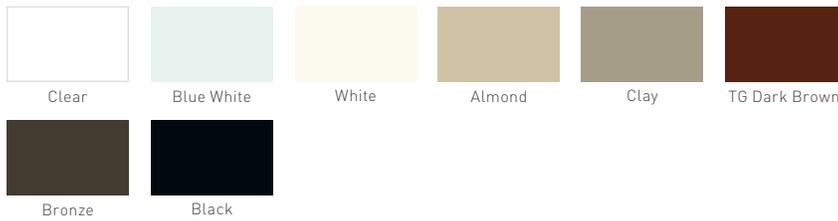

Installation Applications

- Back-bedding
- General purpose high-performance sealant for dynamic moving joints
- Glazing and re-glazing glass
- New construction window and door perimeter sealant
- Weather-barrier joints around fenestration and wall transitions
- Field joinery, mull caps sealing and field reglazing

Standard Colors

Special colors available upon request. Minimum order requirements exist for special colors.

Colors are mechanically reproduced. For color accuracy, please see actual product sample.
