

We certify that the Vulkem[®] 350/351 Pedestrian Deck Coating System has been tested against ASTM C 957, Standard Specification for High-Solids Content, Cold Liquid-Applied Elastomeric Waterproofing Membrane with Integral Wearing Surface and does conform to the specification requirements.

Although Vulkem 350/351 Pedestrian Deck Coating is not NSF registered, or previously authorized by USDA, it does meet the requirements for use in Federally inspected food processing facilities provided it is not used in areas where food is being processed, prepared or packaged. The material must also be applied in a manner which prevents any direct or indirect contamination of food. Additionally, before any food product can be placed in the area of treatment, the sealant must be allowed to cure according to manufacturer's recommendations and the area should be sufficiently free of odor to prevent food contamination.

The Vulkem 350/351 Pedestrian Deck Coating System is listed with **Underwriters Laboratories** to UL790 Class a Fire Rating.
