Colors shown approximate the appearance of the actual coating. Product finishes will vary and color shown may not represent exact finish. Factors such as type of surface, lighting, texture, sheen, and number of coats may cause color variance. Where color matching is critical, an applied sample is recommended. Custom colors are available on request.

Minimum order quantities and custom color per gallon charges will be applied. Contact your local representative for additional information. Vibrant colors may be more susceptible to color drift or fade.

THE RIGHT RESTORATION PRODUCT TO GET THE JOB DONE RIGHT.
