

Rigid Jumbo Closed Angle Corner Bead Submittal Sheet

| STOCK NO. | LENGTH | PCS. PER BOX |
|-----------|--------|--------------|
| CA10RJ | 10' | 45 |

Description: This bead is an unevenly framed corner's biggest enemy – its tight, 81-degree angle and extra-wide mud legs can level out even the most warped drywall corners. Try Rigid Jumbo Closed Angle as a super-sized alternative to metal corner bead; its more acute angle means the mud legs won't buckle or flare out upon installation the way some beginners find 90-degree vinyl beads can.

Advantages: Made from rust proof, dent resistant PVC to reduce jobsite and handling damage. Does not contain cellulose, a potential food source for mold.

Limitations: Product is designed for interior use.

Applicable Standards: Rigid PVC products made by Trim-Tex achieve a Class A rating for flame spread and smoke developed when tested under ASTM E84.

Surface Characteristics: Trim-Tex products are made from PVC. PVC does not support combustion and is self-extinguishing when the source of flame or heat is removed.

Installation: Trim-Tex recommends following established acceptable industry standard installation methods. Detailed installation instructions can be found at www.trim-tex.com.

Finishing: Always use a high quality paint.

Accessories: 847 Spray Adhesive and Safety Products distributed by Trim-Tex.
