## Tear Away<sup>®</sup> L Bead

This is the gold standard for finishing drywall around windows, doors and other essentials. Tear Away Bead features a convenient tear-off strip, which acts as a guide for your taping knife and a protective mask for mudding, resulting in smooth finished edges and far less cleanup.

## Shower Bead

The must-have solution for finishing around showers and tubs! Shower Bead bridges gaps 2" or less between drywall and other substrates. But finishers especially love it for shower/tub enclosures because it uses significantly less mud than filling and paper-taping those sizable gaps, offering a mold-free alternative to paper in damp areas like these.

## Flat Tear Away<sup>®</sup> L Bead

For finishing around building components like windows and doors, where the drywall is sometimes butted too close to slip a return leg behind it – or when backing materials, like acoustical sealant, have been added – Flat Tear Away can be a lifesaver. Its tear-off strip serves as a protective mask to create clean finished edges.
