

Corner Bead and Archway

Why use vinyl corner beads? They're more durable, more flexible and more sustainable (each Trim-Tex bead is made from at least 70% recycled materials) than their steel counterparts – and that's just the tip of the iceberg. Trim-Tex's standard Corner Bead & Archway is our touchstone for finishing 90-degree corners, while the bendable archway variety is the perfect choice for curved surfaces.

STOCK NO.	LENGTH	PCS. PER BOX

Jumbo Corner Bead and Archway

Jumbo Corner Bead & Archway is a supersized tweak on our classic corner bead design, featuring a slight radius on its nose. The bead helps to prevent cracking on lofts, balconies and all bridging, with extra-wide 1 3/4" mud legs. With this single solution, you're able to finish up to two full layers of 5/8" drywall.

Outside Splayed Corner Bead

Drywall finishers need to be prepared for more than just your average 90-degree corners, which makes a box or two of Splayed Corner Bead a downright necessary part of your inventory. This solution suits a range of splayed outside corner angles, from 120 degrees to 140 degrees.

Jumbo Splayed Corner

The strength, ease of use and durability of Jumbo Corner Bead is now available for splayed outside corners, with extra-wide 1 3/4" mud legs. The bead is formed for a true 135-degree splayed outside corner, but can be adjusted in the field without any tools to fit other splayed outside angles, from 120 degrees to 140 degrees.
