

FIBERGLASS JOINT TAPES

USG Sheetrock® Brand Fiberglass Joint Tape is made with a unique cross-fiber construction to provide greater drywall joint strength than conventional fiberglass leno-weave **mesh** tapes. This self-adhesive tape goes on quickly, eliminating the bedding coat. Finished joints are accomplished in two coats by using setting-type joint compound. It is not recommended to use drying-type compounds with fiberglass tape.

USG SHEETROCK® BRAND FIBERGLASS JOINT TAPE

- Self-adhesive tape—no bedding coat needed
- Smooth joints in only two coats
- Use with setting-type joint compounds for one-day joint finishing
- Meets ASTM C475, Type II
